

SADAHAM SARANA Project

As of August 13, 2025

1. Project Scope Overview

The SADAHAM SARANA project is a user registration and management system designed with two main components:

- **Public Website** – Accessible to all visitors, providing information and resources.
- **Admin Dashboard** – For operational control, content management, user role management, and reporting.

2. Front-End Website

The public website will consist of five main pages to represent the organization online and enable user engagement.

Key Pages:

- **Home** – Overview of the organization, and featured content.
- **Contact Us** – Contact details.
- **About Us** – Information about the SADAHAM SARANA.
- **Blog** – Articles, resources, links, and updates.
- **Media – Book Library** – Collection of digital books and publications.

3. Blog Functionality

- **Article Upload:**
 - ✓ PDF files can be uploaded as blog articles.
 - ✓ Only S4 (Active Members) have permission to upload blog articles.
- **Article Viewing:**
 - ✓ Visitors can view blog articles via the front-end website.

4. Admin dashboard

4.1. User roles

- S1. Former member
- S2. Inactive member
- S3. Member
- S4. Active member
- S5. Organizer Board
- S6. Advisory Board
- S7. Leadership

4.2. User registration

This includes a basic User Registration Form where new users can register by entering:

- First Name
- Last Name
- Phone Number
- Password & Confirm Password
- *Phone Number Verify SMS OTP*

Registration Process:

1. User fills out the form with accurate details.
2. Verify data using phone number verification.
3. Data is stored in the system's database.
4. S4 approve the registration of new user.

4.3. Chat Feature

- S3 (Members) can chat only with one S4 (Active Member).
- S4 (Active Members) can:
 - ✓ Send notifications to their team.
 - ✓ Send user-specific notifications.
- Super Admin has access to view all chat conversations.
